

CSP JV (Cyprus Services Provider Joint Venture) an established Joint Venture working within the British Sovereign Base areas, has a requirement for B&CE Engineers for Dhekelia/Agios Nikolaos and Akrotiri.

Building & Civil Engineering (B&CE) Engineers

General Role

The B&CE Engineers will be responsible for the safe, reliable and cost-effective delivery of all asset building and civil engineering operations and maintenance works on their site, including outstations.

Profile

The posts are for engineers with five years' experience in either contracting or maintenance operations and a self-motivated team player with proven track record in the delivery of multi discipline projects and operations.

- Ability to work as part of a team.
- Ability to work to deadlines.
- Produce concise information and documentation with attention to detail and presentation.
- Good communication and interpersonal skills.
- Ability to work with a Quality Assurance system.
- IT literate on all MS Office programs including Microsoft Project.
- Knowledge of AutoCAD would also be advantageous.
- Good command of the English language.
- Carry out structural designs for minor works for concrete and steel structures.

Qualifications

B&CE Engineer - B.Sc. in Civil Engineering or Structural Engineering or Building Engineering, as a minimum.

An attractive remuneration package will be offered to the suitable candidates.

For more information on qualifications and experience required as well as on duties and responsibilities please contact Ms Janet Yianni on 25963022

Applicants should send their C.V. with a covering letter by email to janet.yianni@cspjv.com by 31st July 2025.

All applications will be treated with the strictest confidence.
