

Eliofotou Zinieris & Stasis Partners MELTEC, one of the most established electromechanical consulting companies in Cyprus, is seeking talented and ambitious Electrical Engineers to join our team.

With a presence since 1992, Eliofotou Zinieris & Stasis Partners MELTEC has established itself as a leader in the electromechanical consulting sector. We specialize in a wide range of projects, from buildings to infrastructure, utilizing the most modern technologies and methods. Our team consists of experienced engineers, designers, and office personnel, who collaborate to provide comprehensive and innovative solutions. We offer a dynamic and supportive work environment, with opportunities for continuous development and growth.

We are seeking:

Junior Electrical Engineer (No Experience):

Willingness to learn and develop.

Ability to work in a team environment.

Interest in modern technologies.

Electrical Engineer (Up to 3 Years of Experience):

Proficiency in electrical design software (e.g., AutoCAD, Revit, EOM).

Experience in electromechanical projects.

Ability to take initiative and solve problems.

Ability to work in a team environment.

Experienced Electrical Engineer (Over 6 Years of Experience):

Excellent knowledge of design software (e.g., AutoCAD, Revit, EOM).

Extensive experience in complex electromechanical projects.

Ability to manage projects and teams.

Experience with advanced technologies in the industry.

Required Qualifications for all candidates:

Bachelor's degree in Electrical Engineering.

Member of Cyprus Scientific and Technical Chamber (ETEK)

Communication and organizational skills.

Results-oriented and goal-driven.

What we offer:

Participation in large and innovative projects.

Continuous training and professional development.

Competitive salary and benefits package.

A pleasant and creative work environment.

Submission of CVs: Interested candidates are kindly requested to send their curriculum vitae to careers@meltec-cy.com
