# **TAIEX SRSP Workshop on E-Mobility and public charging infrastructure**

**organised in co-operation with**

The Directorate General for Structural Reform Support  
and

Ministry of Energy, Commerce and Industry

---

**27 January 2021**

Video Tele Conference

**Beneficiary:**

Cyprus

## Aim of the Workshop:

---

The Structural Reform Support Programme (SRSP) is operated by the European Commission's Directorate General for Structural Reform Support (DG REFORM). TAIEX SRSP events are organised by DG NEAR in agreement with DG REFORM for the benefit of Member States who are receiving technical support through the SRSP.

The Webinar, which focuses mainly on policy makers and stakeholders in the field of electromobility, will concentrate on European and International Best Practice examples. Among the issues to be discussed are the different models of regulation of electromobility (e.g., licensing vs. concession models), the options available to ensure interoperability, roaming between service providers and information and technology support structures that need to be developed around recharging points.
