The Certified Manager Program

Innovage Consulting, the official Training Partners of ICPM in Cyprus, in association with **ETEK** is very pleased to announce the offering of the **Certified Manager Program** for ETEK members. The CM Program is a professional training program sponsored by the Institute of Certified Professional Managers (ICPM) in the United States of America. The CM Program develops and enhances general management skills and prepares individuals performing or aiming at performing managerial duties to take the CM management certification exams. **Those who successfully complete the CM exams achieve the CM certification and can use the CM title after their name**, a prestigious credential that recognises competency and professionalism of managers worldwide in all fields.

All Certified Managers are authorised to use the official professional designation letters CM after their name. They are also fully eligible and qualified to join as full members of the Certified Professional Managers Association of Cyprus.

The Certified Manager Body of Knowledge

The Certified Manager Body of Knowledge is organised into 3 modules. Each Module will be taught by trainers approved and accredited by ICPM, holders of PhD degrees and appropriate practical experience. The knowledge domains of each module are assessed by a corresponding CM certification exam (three exams in total). Eligibility requirements must be met and three CM certification exams passed to earn the CM Certification.

The Program Content

- Accounting and Financial Information
- Financial Management

Why you should participate in the Certified Manager Program

The CM certification is highly sought after in today's workplace because:

- It will enhance your management and leadership knowledge, skills and ethics.
- It will develop confidence and improve your on-the-job performance.
- It will verify your level of management competency and leadership potential.
- It will demonstrate your commitment to continuing professional development.
- It will offer you a competitive edge for selection and advancement.
- It will add credibility to your organization as an organization that invests in quality management.
- It will give you the opportunity to network locally and internationally with other Certified Managers.
- It will give you the opportunity to continuously find resources and support from your peers and ICPM.

Who have already been Certified

More than 12,000 professionals all over the world have already attended the Certified Manager Program and enjoy the benefits of Certification. Some of the many companies that have already participated in the Certified Manager Program are AIG, Glaxo Smith Kline Pharmaceuticals, Pepsi Cola Bottling Co, Toyota, Harvard University, Bank of America, HSBC, Hellenic Bank, CYTA, Bank of Piraeus, Bank of Cyprus.

How to apply

The application serves as an audit of the applicant's education and experience. It determines eligibility to take the CM certification exams based on a point system.

Education points are awarded for high school completion, college degree and non-degree programs, and management training (including CM preparatory classes). Education points are verified by diploma, degree, and/or certificates of completion.

Experience points are awarded for managerial, non managerial, general business, leadership, and teaching experience. Experience points are verified by reference statements signed by former employers.

What does your registration include

Your investment includes class room training, the three official training McGraw Hill books for the training Modules, the official power point presentation and other Program related material, the participation in the official online multiple choice exam for each Module, the official Certificate and Pin, the Promotional kit, the ICPM online CM Management World Journal, the Certified Newsletter, the JobNet Job Board and participation to the final Recognition Ceremony.
